1. DESCRIPTION

This course explores the principal architects, monuments and themes of fifteenth and sixteenth century Italian architecture. Class time is divided equally between slide lectures and on-site visits in the city of Florence. Emphasis will be on Renaissance architecture in Florence, but will also include architectural developments in Rome, Urbino, Mantua, Verona and Vicenza. Special topics will include: architectural theory, Medici and papal patronage, urban planning, and church and palace design. Attention will be given to architects: Brunelleschi, Alberti, Michelozzo, Giuliano Sangallo, Bramante, Antonio Sangallo the Younger, Michelangelo, Giulio Romano, Giorgio Vasari and Palladio. Visits to key Renaissance buildings and urban spaces in Florence are included.

2. OBJECTIVES

This course aims to equip students to recognize the main characteristics, styles, and architectural elements of typical Italian Renaissance buildings, concentrating on Florentine architectural styles. Upon successful completion of the course, students will be able to describe and identify architectures and styles of different artists. Furthermore, they will define architectural terms as well as the function of the major architectural and structural parts of buildings. In addition, many architectural terms given and used by the professor will be kept in the Latin or Greek language, so that students can familiarize themselves with international architectural terminology. Above all, students will develop the ability to critically analyze works of the renaissance period and its main artists.

Late Arrival and Early Departure

Arriving late or departing early from class is not acceptable. Two late arrivals or early departures or a combination will result in an unexcused absence. Travel is not an exceptional circumstance.
