**DEPARTMENT OF HISTORY; ART HISTORY; URBAN STUDIES**  
**COURSE TITLE: FLORENTINE ART WALKS**  
**COURSE CODE: LAHSFW280; LAAHFW280; GSUSFW280**  
**3 semester credits**

**1. DESCRIPTION**

This course examines the city of Florence with themed walks offering a comprehensive approach to the city as an open-air cultural, historical, and artistic research site from its Roman foundation to its contemporary Zeitgeist. Students will learn the history of the city through its art: they will understand how buildings, streets, squares, and monuments can be mapped as living traces of multiple, overlapping layers of a complex past, and how to encode them in their personal appropriation of the city. Starting from learning how to decode the artistic environment of the city and to unveil its traces – both visible and invisible – the course aims at understanding the main social and cultural reasons underlying the existing shape of the city. The course explores traces and evidences from Roman times through Middle Ages, Renaissance, Mannerism and Baroque, up to Art Nouveau and contemporary Florence. Students will be provided with a consistent theoretical background related to relevant historic-artistic landmarks and their social and cultural context and main characters (Guelphs vs. Ghibellines, the Florentine Guilds, Dante, the Medici family, Botticelli, Michelangelo, Ghirlandaio, Ammannati, Pontormo, etc.). Students will be encouraged to develop their own experiential tools and strategies to approach the city through guided field learning activities that assess research, on-site involvement, and academic outcome for each themed walk in Florence.

The approach of this course is based on experiencing the city of Florence as the academic space for learning and engagement. Classes are not held in a traditional, frontal-style setting; each lesson is carefully mapped for curricular content and featured locations: lectures, observations, exercises, analysis, and reflections on presented topics are held in relevant sites that are accounted for in the academic planning, syllabus, and related course material. Coursework and submissions will be regularly assessed on the MyFUA platform through daily assignments in addition to exams, papers, and projects. Learning through the on-site classroom approach fosters a deeper understanding of the cultural environment of Florence and how it is related to the subject of study represented by the course, and allows the overall experience to contribute to the students' academic and personal enrichment.

**2. OBJECTIVES**

Upon successful completion of this course, students will be able to:

- Display knowledge related to the city of Florence and its historical and artistic value.
- Refer to specific buildings, streets, squares and monuments in the city of Florence and explain their historical and artistic relevance.
- Retrace the history of the city of Florence and its urban evolution from the Middle Ages to present day.

- Outline the distinctive traits in the historical and artistic periods of the Middle Ages, the Renaissance, Mannerism, Baroque and Art Nouveau.

### 3. REQUIREMENTS

None.

### 4. METHOD

This course consists of lectures, discussions, and site visits within the local community. Mediums for instruction used will include, but are not limited to, interactive and hands-on activities which challenge thought processes, academic texts and studies, and experiential and/or field learning activities where applicable. As described in point 1, lessons are not held in traditional classroom settings but are based on the city of Florence as the academic space for learning and engagement. Please review the course description for the structural approach and method of coursework.

## 6. FIELD LEARNING

Please consult your Official Registration for any mandatory field learning dates. Field Learning Activities cited in Official Registrations are an integral part of the course and also include an assignment that counts towards your final grade, details will be provided on the first day of class.

## 7. COURSE MATERIALS

No additional course materials are necessary.

## 8. COURSE FEES

Course fees cover course-related field learning activities, visits, and support the instructor's teaching methodologies. Book costs are not included in the course fee. The exact amount will be communicated by the instructor on the first day of class.

## 9. EVALUATION – GRADING SYSTEM

10% Attendance

10% Participation

15% Reflection Journal

20% Midterm Exam

25% Final Exam

20% Final Paper

A = 93-100 %, A- = 90-92%, B+ = 87-89%, B = 83-86%, B- = 80-82%, C+ = 77-79%, C = 73-76%, C- = 70-72%, D = 60-69%, F = 0-59%, W = Official Withdrawal, W/F = Failure to withdraw by the designated date.

## 10. ATTENDANCE – PARTICIPATION

Academic integrity and mutual respect between instructor and student are central to the academic policy and reflected in the attendance regulations. Student presence is mandatory and counts toward the final grade.

**Absences** are based on academic hours: 1 absence equals 3 lecture hours.

Two absences: 6 lecture hours, attendance and participation grade will be impacted.

Three absences: 9 lecture hours, the final grade may be lowered by one letter grade.

Four absences: 12 lecture hours, constitutes automatic failure of the course regardless of when absences are incurred.

Please note:

- The above hours refer to lecture hours. Please note that the contact / credit hour policy in the academic catalog includes additional distribution ratios according to delivery category. Ex: 1 absence equals 6 FL/SL/Lab hours or 9 EL hours.

- Hours may be distributed in different formats according to the academic course schedules.

### LATE ARRIVAL AND EARLY DEPARTURE

Arriving late or departing early from class is not acceptable. Two late arrivals or early departures or a combination will result in an unexcused absence. Travel is not an exceptional circumstance.

### TRAVEL (OR DELAYS DUE TO TRAVEL) IS NEVER AN EXCUSE FOR ABSENCE FROM CLASS.

It is the student's responsibility to know how many absences are incurred. If in doubt, speak with your instructor!

**Participation:** Satisfactory participation will be the result of contributing to class discussions by putting forth insightful and constructive questions, comments and observations. Overall effort, cooperation

during group work, proper care of work space and tools, responsible behavior, and completion of assignments will be assessed. All of the above criteria also apply to Field Learning and site visits.

## 11. EXAMS – PAPERS – PROJECTS

The **Reflection journal** accounts for 15% of the final course grade. Students submit the reflection journal in two parts (mid and end of the semester). There are three phases for successful journal writing: 1) Active observation 2) Research 3) Writing.

1) Active observation: whilst observing, develop your critical thinking skills by answering some of the questions below (not all questions might be relevant to what you are observing):

- What is more important in urban planning: functionality of spaces and building, or the form and beauty of the structures?
- Explore the relationship between the exterior and interior of a building. In what ways do they affect one's "experience" of the building?
- Explore the relationship between architecture and environment. Think about how buildings exist within a space, climate, and culture. How does architecture contribute or distract from its environment?
- Explore the connections between different artistic currents (Renaissance, Mannerism, Baroque, Art Nouveau, Modernism) and different fields (philosophy, psychology, technology, etc).
- Explore the connections between different artistic currents and lifestyles.
- What is the relationship between technology and art/architecture?
- Compare and contrast the design of the buildings seen so far.

Note: You are not limited to these questions and are welcome to include in your journal any other thoughts. Take pictures of what you see so that you can refer back to these at a later stage when writing your journal. You may want to include these pictures in your journal but, notice, these will not be assessed.

2) Research: Each walk must be accompanied by appropriate reading (compulsory texts must be read before the walk and are indicated in the syllabus). Additional reading and research on the internet (from reliable sources) will help you answer some of the above questions more thoroughly. You may also want to ask locals for any additional information. To demonstrate you have read the daily assigned chapters, include references from the book in your journal entries.

3) Writing: Look back at your notes and pictures, think about what you have read and for each walk, write a short text of 300-350 words. Before submitting, ensure the final product of your journal is well-presented (work must be typed and in a readable font, quotations and citations (if any) must be referenced appropriately). Your journal will be assessed on the basis of completion, originality of content and demonstrated critical thinking skills.

The **Final Paper** accounts for 25% of the final course grade. Choose ONE of the essay questions below and write a paper between 2500 and 3000 words. Make sure your paper conforms to academic standards in terms of style and register. Your paper must include at least four quotations and/or citations from scholarly books, journals, or articles. Ensure your paper is properly referenced and includes a bibliography. Include a word count at the end of the paper (you may go 10% above or below the word limit).

1. Although city planning as an organized profession has existed for less than a century, all cities display various degrees of forethought and conscious design in their layout and functioning. Discuss ancient Roman city planning, the factors that influenced it, benefits and challenges encountered at the time.
2. Is architecture art in itself? Argue in favor or against such a statement and present alternative views. Refer to as many relevant examples encountered throughout the course as possible.
3. "Architecture should speak of its time and place, but yearn for timelessness". Discuss this quotation by Frank Gehry by referring to as many relevant examples encountered throughout the course as possible.
4. Choose one artist encountered in this course and discuss how political, cultural, economic and other relevant factors of the time influenced the artist whilst creating a piece of artwork.

*\* The instructor may provide alternative essay topics.*

### Midterm and Final Exam

The **Midterm** exam accounts for 20% of the final course grade whilst the **Final** exam accounts for 25% of the final course grade. Both exams consist of 10 open-ended questions and they will be uploaded on the course website MyFUA and are to be completed by the student at home under exam conditions. This means that:

- The exam must be taken completely alone. Showing it or discussing it with anybody is forbidden, including (but not limited to) the other students in the course in current or previous years.
- You may use any publicly available material you want, including books, the internet, etc. However, you are NOT allowed to submit questions to internet discussion groups.
- Use your own words. If you find a solution of a question in a book or online, cite it in your submission and do not copy it as-is. Make changes which demonstrate you understand what you are writing. Plagiarism will be severely penalized.
- You may take as much time as you need to complete the exam. You may start the exam and return to it at a later stage. Note, you will no longer have access to the exam once the deadline has passed.

The solved exam must be uploaded on MyFUA before the deadline. Late submission will be penalized; technical problems will not be accepted as an excuse for late submissions. It is your responsibility to make sure that your computer and internet connection work properly and that the solved exam is uploaded on time.
